Introducing Domae

Residential Distribution Range

- Domae meaning “home” in Latin was developed and released in Europe by Schneider Electric in 2002.
- From a stable of products with a proven history, now specifically designed for residential use.
- The NZ range has been completed by our R&D with the addition of a Type A RCCB and RCBO
- Fully compliant with NZ standards
- 6kA
- Expert design and testing assuring safety and reliability
